

MDI Networks Ltd

## **FREE workshop for IT managers working in Schools/Colleges**

**MDI Networks in association with Microsoft and Hewlett Packard present**  
*"Improving the Management, Reliability and Performance of your Network"*

Date: Friday 2nd December 2011

Time: 09:30 – 16:00

Venue: Portsmouth Technopole, Kingston Crescent, Portsmouth, PO2 8FA

### **Morning Workshop Outline**

Sean Taylor from Computer 2000 will be explaining how the Microsoft System Center Virtual Machine Manager & Operation Manager can help you:-

- Centrally create & manage virtual machines
- Easily consolidate multiple physical servers onto virtual hosts
- Rapidly provision and optimize virtual machines
- Unify management across platforms, applications, components & hypervisors
- Dynamically respond to changes with automated actions to ensure continued service and availability

### **Afternoon Workshop Outline**

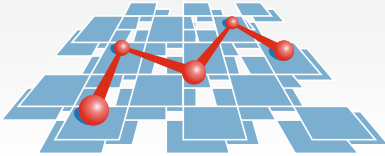

Jeremy Arnold from HP's Product Support Group will be talking about:

- Overview of HP's networking products
- Adding resilience to switched networks
- Improving performance in campus networks
- Moving to 10 Gigabit Ethernet
- Overview of HP's latest networking promotions

### **About the Speakers:**

#### **Steve Voller**

**MDI Networks Ltd**  
Director

Steve has worked in the technology sector for over 17 years gaining experience in a wide range of organisations from Government research & development departments through to Enterprises such as IBM, Norwich Union, NDS, and Lockheed Martin. Over the past 15 years Steve has worked in depth with Microsoft Server and BackOffice products from Windows NT4.0 right up to the latest products, such as Windows Server 2008, Exchange 2010, Hyper-V Server 2008 and SCCM.

#### **Jeremy Arnold**

**Hewlett Packard**  
HP Solution Architect

Jeremy has been working at Hewlett Packard for 6 years as a Networking Solution Architect. Since the HP acquisition of 3COM in April 2010, Jeremy had responsibility for supporting Public Sector business throughout Wales, West Midlands and South West England including education solutions. He now leads a team of Solution Architects supporting HP's networking channel partners.

#### **Sean Taylor**

**Computer 2000**  
Microsoft Solution  
Architect

Sean has 14 years of high level technical experience in Microsoft technologies. He previously worked for a Microsoft training specialist where he developed in-depth knowledge of Microsoft Systems Center, Forefront and other solutions. Sean has worked with the University of Leeds ISS team to migrate their aging SMS 2003 solution to SCCM 2007 R2 and integrate it with App-V.
